

Filipe Carvalho Matheus

It has been a great pleasure to serve as a preceptor for students from the Howard University College of Pharmacy (HUCOP). Over the past year, I had the opportunity to work closely with highly motivated, professional, and inquisitive students who demonstrated strong clinical knowledge and a deep commitment to patient care.

Their ability to adapt to a new healthcare environment, communicate effectively with our interdisciplinary team, and engage in meaningful pharmaceutical care activities was truly impressive. They not only contributed to the daily operations of our practice but also enriched the experience with their diverse perspectives and eagerness to learn.

As a preceptor, I found the collaboration with HUCOP to be highly rewarding. The program is clearly successful in preparing students to excel in international and multicultural clinical settings. I would gladly welcome future students from HUCOP and continue supporting their development as future leaders in pharmacy. Thank you once again for the opportunity.

Filipe Carvalho Matheus, PhD

Professor

University Pharmacy Postgraduate Program in Pharmaceutical Services and Policies
Federal University of Santa Catarina - UFSC - Trindade Campus Health Sciences Center
Florianópolis, Santa Catarina, Brazil
