HOWARD UNIVERSITY | College of Pharmacy

HISTORY

Howard University was founded in 1867. Soon after, Pharmacy instruction at Howard University began in the "Department of Medicine" in 1868. The initial program, held in the evening, offered students a "knowledge of the art and science of pharmacy." As a result of this program, in 1870, the first graduate of Howard University, James Thomas Wormley, received the Doctor of Pharmacy degree from the Medical Department. During the same year, the pharmaceutical program was differentiated from the medical program, and by 1882, the Medical Department consisted of the College of Medicine, the College of Pharmacy and the College of Dentistry. Since this early beginning, the College of Pharmacy has been among the leaders in the preparation of individuals for rewarding careers in pharmacy.

The College of Pharmacy currently offers a range of degree programs and pathways, including the four-year entry-level Doctor of Pharmacy (Pharm.D.) program, Online Pharm.D. Pathway, BS/Pharm.D. Pathway, AA/Pharm.D. Pathway, Ph.D. in Pharmaceutical Sciences, MPH/Pharm.D. and Pharm.D./MBA dual-degree programs, and the Non-Traditional Pharm.D. Pathway.

Consistent with the mission of Howard University, the College's mission is to provide pharmaceutical education of excellent quality to students with high academic, scholarship and leadership potential, with particular emphasis upon the recruitment, retention, and graduation of promising African American and other minority students.

Howard University College of Pharmacy's impact extends beyond its degree programs. Through offerings such as the Postgraduate Pharmaceutical Fellowship, Pharmacy Technician Program, Mid-Atlantic AIDS Education and Training Center, and continuing education, the College creates opportunities for individuals at every stage of their pharmacy journey. Together, these programs reflect the College's longstanding commitment to advancing pharmacy education, professional development, and community impact.

EXCELLENCE IN TRUTH AND SERVICE

OUR VISION

Howard University College of Pharmacy will be a local and global driver of pharmacy leadership, innovation, and health equity through transformative excellence in education, research, and service.

OUR MISSION

The mission of Howard University College of Pharmacy is to provide excellent pharmacy education to students with high academic, scholarly, and leadership potential, with particular emphasis on the recruitment, retention, and graduation of promising African American and other ethnically diverse minority students. The College fosters the creation of new knowledge through innovative research and scholarship, commitment to community service, continuous professional development, and dedication to superior pharmacy practice locally and globally.

OUR VALUES

Our mission and vision capture the essence of the core values embedded within the fabric and identity of our faculty, students, and staff. We demonstrate these values in our interactions with each other and with those we serve daily. The Howard University College of Pharmacy "Pharmily" demonstrates Collaboration, Accountability, Respect, and Excellence: C.A.R.E.

WHEN WE C.A.R.E. WE EXCEL!

1867 HOWARD UNIVERSITY College of Pharmacy

Message from the Dean

HOWARD UNIVERSITY | College of Pharmacy

As we reflect on another year of growth and achievements at Howard University College of Pharmacy, I am reminded that our progress is built upon the foundation laid by those who came before us. Their commitment to Excellence, Truth and Service continues to guide our work as we prepare the next generation of pharmacists, researchers, educators, and healthcare leaders.

We are incredibly proud of our students and their dedication to their education and experiences at Howard University College of Pharmacy. Whether pursuing the traditional Pharm.D. or Ph.D. program, our students continue to rise to new heights through research, community engagement, leadership, and service. We are proud to see them step into spaces where their voices can help shape the future of healthcare. Their commitment and hard work are reflected not only in their achievements, but also in the continued growth of our NAPLEX performance.

Our commitment to workforce development continues through the Pharmacy Technician Program, the Pharmaceutical Industry Fellowship Program, continuing education, and other opportunities that connect students with diverse career pathways. Through our global initiatives and international experiential opportunities, our students continue to broaden their understanding of healthcare and pharmacy practice around the world.

At the heart of all we do are our C.A.R.E. values—Collaboration, Accountability, Respect, and Excellence. These principles shape how we educate, how we serve, and how we prepare our students to contribute to the communities they will one day lead and care for.

None of this would be possible without the dedication of our faculty, staff, Board of Visitors, students, alumni, partners, and friends of the College. Your commitment continues to move Howard University College of Pharmacy forward.

As you explore this Annual Report, I invite you to celebrate the people, accomplishments, and moments that define our year. Our story continues to be one of purpose, progress, and possibility.

The future of Howard University College of Pharmacy is bright. Together, we will continue to build on our legacy while creating new pathways for excellence, innovation, and impact in pharmacy and healthcare.

Warm regards,

Ranti Akiyode, Pharm.D., R.Ph.

DEPARTMENTS

Clinical and Administrative Pharmacy Sciences

Clinical and Administrative Pharmacy Sciences department, unifies pharmacy practice and social and administrative pharmacy sciences. With a dedicated team of faculty members in pharmacy practice and social and administrative pharmacy, we shape the majority of the college's curriculum and offer a prestigious Ph.D. program in social and administrative disciplines, providing students with hands-on experiences and opportunities for advanced learning and research.

Pharmaceutical Sciences

The Pharmaceutical Sciences Department plays a pivotal role in the Pharm.D. program by providing essential courses that impart a comprehensive understanding of fundamental pharmaceutical and biomedical sciences relevant to pharmacy practice. These courses, typically completed within the program's initial two years, serve as the cornerstone for subsequent clinical science education.

PROGRAMS

Office of Continuing Professional Education

Howard University College of Pharmacy, Office of Continuing Professional Education is dedicated to promoting the professional development of pharmacists, pharmacy technicians, and other professionals in the field of pharmacy, focusing on educational programs that address current trends in drug therapy management in diverse populations. Seeking to impact pharmacy practice across various settings and effectively cater to specific disease populations, aiming to create a significant and positive influence within the pharmaceutical community.

Experiential Education

Experiential education comprises approximately one-third of the Doctor of Pharmacy curriculum, encompassing both Introductory Pharmacy Practice Experiences and Advanced Pharmacy Practice. This hands-on component enables students to effectively apply their classroom-acquired experiences and knowledge in diverse practice settings, with opportunities for pharmacy practice experiences spanning the United States and abroad.

Pharmaceutical Industry Fellowship

The Howard University College of Pharmaceutical Industry Fellowship Program places a particular emphasis on candidates from diverse backgrounds, especially African Americans, who have demonstrated excellence, exceptional written and oral communication skills, a strong willingness to engage in mentorship, and innate leadership potential suitable for high-level executive roles. The program is ranked #4 in the nation, and places special emphasis on “taking the limits off” while taking fellows from “success to significance.”

Pharmacy Technician

The Howard University Pharmacy Technician Training Program aims to recruit, prepare, and develop pharmacy technicians for job opportunities in the Washington, DC, area. The program is housed at the Howard University College of Pharmacy, which is the only pharmacy school in the District of Columbia. The proposed training is well-positioned for operational excellence, as it leverages the expertise of our college's faculty pharmacists, as well as the existing partnerships with employer partners serving our professional pharmacy program.

CENTERS

Center of Excellence

The Center of Excellence (COE) program aims to strengthen the national capacity for producing culturally competent healthcare professionals, with a focus on diverse representation. It supports designated health professional schools, certain historically black colleges and universities, and other educational institutions with high enrollment of Hispanic or Native American students. Additionally, the Center of Excellence program extends to public and non-profit entities, including graduate programs in mental or behavioral health, to train underrepresented minority students in various health professions.

Mid-Atlantic AIDS Education and Training Center

The Howard University Mid-Atlantic AIDS Education and Training Center Regional Partner is dedicated to delivering comprehensive HIV/AIDS education, consultation, technical assistance, and resource materials. The primary focus is on supporting healthcare professionals in the Mid-Atlantic region, with a particular emphasis on the District of Columbia.

Pharmaceutical Care and Continuing Education Center

For over 25 years, the Pharmaceutical Care and Continuing Education (PACE) Center has been a significant component of Howard University's international presence, focusing on global and international initiatives. Since its establishment in 1993, the PACE center has been actively involved in training programs and projects, offering customized courses to leaders and professionals in pharmaceutical care across nearly 30 countries in Africa, the Caribbean, and Europe. Recognizing the evolving landscape of healthcare and drug development, the center has adapted to embrace international programming opportunities, providing valuable and sustainable public health training to pharmacists worldwide, empowering them to play a more strategic role in primary health care.

DEGREE OFFERINGS

Doctor of Pharmacy (Pharm.D.) Pathways

- Traditional In-person four-year program
- New Online four-year program

Non-Traditional Pharm.D. Pathway

Two and a half to three-year program designed for practicing pharmacist

BS/Pharm.D. Pathway

Accelerated route to earning both a Bachelor's degree and a Doctor of Pharmacy (Pharm.D.) in just seven years, instead of the traditional eight.

AA/Pharm.D. Pathway

Streamlined route into our Doctor of Pharmacy (Pharm.D.) program. To qualify, students must first complete an Associate of Arts (A.A.) degree with a concentration in Biology or Chemistry from one of our partnered community colleges.

Dual-degree

- Pharm.D./MBA program
- Pharm.D./MPH program

Ph.D. in Pharmaceutical Sciences

Ph.D. program for those with backgrounds in the biomedical and biological sciences, pharmacy, chemistry, chemical or biochemical engineering, and other related fields

GLOBAL ACTIVITY

Pharmaceutical Care and Continuing Education Center

Established in 1993, the Pharmaceutical Care and Continuing Education (PACE) Center has been a cornerstone of Howard University College of Pharmacy's international engagement for more than 20 years. Through global trainings, customized programs, and public health initiatives, the PACE center prepares pharmacists and healthcare professionals to address evolving healthcare needs and strengthen pharmacy practice worldwide.

1867 HOWARD UNIVERSITY | College of Pharmacy

HOWARD UNIVERSITY | College of Pharmacy

International APPE Rotations

Howard University College of Pharmacy students have an opportuntiy to gain global experience through international Advanced Pharmacy Practice Experiences (APPEs), applying their clinical knowledge in diverse healthcare settings while developing cultural awareness and a broader understanding of global pharmacy practice.

Elsie Fuakye at the University of Cape Coast (UCC) in Cape Coast, Ghana

Kwinci Britt at Seoul National University in Seoul, South Korea

Kennedi Jackson at JSS Academy of Higher Education And Research in Mysuru, India

Timricka Smalls at the University of Cape Coast (UCC) in Cape Coast, Ghana

The PACE center continues to expand international pharmacy training opportunities through mentorship and hands-on experiences that strengthen culturally competent care and improve patient outcomes locally and globally. The goal is for every HUCOP student pharmacist to participate in at least one international experience during their pharmacy education.

STUDENT ACHIEVEMENTS

Victoria Hanahoe
Class of 2026

Victoria, valedictorian of Class of 2026 shared a reflection on her Howard experience. During the 2026 Oath and Awards she shared that the College provided more than a pharmacy education it gave her a community rooted in diversity, culture, lifelong friendships, and meaningful experiences that prepared her for her career as a pharmacist.

Elsie Boateng
Class of 2028

Elsie was selected as one of only 21 recipients nationwide for the 2025 CVS Health Foundation AACP Community Pharmacy Award. Funded by the CVS Health Foundation, the award includes a scholarship and recognizes student pharmacists making an impact in community health and patient care across the country.

Makayla Robinson
Class of 2027

Selected as one of only five recipients of the AMCP Nexus Mid-Atlantic Scholarship, recognizing her dedication to academic and professional growth and her commitment to advancing the pharmacy profession. The honor reflects her continued commitment to excellence and leadership in pharmacy.

HOWARD UNIVERSITY | College of Pharmacy

Jacob Krah

AACP Aspiring Academic Program

Doctor of Pharmacy candidate Jacob Krah continues to explore opportunities to help shape the future of academic pharmacy. His commitment to professional growth led to his acceptance into the 2025 American Association of Colleges of Pharmacy (AACP) Aspiring Academics Program, where he gained insight into a future in pharmacy education and leadership.

Selina Davis

A Journey of Care, Advocacy, & Impact

Selina's time at HUCOP deepened her understanding of both the science of pharmacy and the "art of medicine." Through clinical rotations, she has applied her classroom knowledge to patient care while learning to understand each patient's unique needs and lifestyle. Her experiences have strengthened her commitment to improving patient care, providing answers, and advocating for those who need a voice.

Rakcchya Upretty

Advancing Health Outcomes Through Pharmaceutical Research

Third-year Ph.D. candidate focused on health outcomes research, Dr. Uprety continues to connect scholarship with community impact. In 2025, she completed a community internship supporting returning citizens, published peer-reviewed research, presented at conferences, and received an ISPOR travel grant to present her research in Glasgow, Scotland.

STUDENT SPOTLIGHT

A Journey Shaped by Excellence, Science, and Service

For David Ferguson, Class of 2027, science has always been a pathway to service. Raised in the Caribbean by parents who worked in education, David grew up with a strong appreciation for knowledge, compassion, discipline, and excellence.

During his early education, David participated in speech competitions and science fairs that sharpened his critical thinking skills and deepened his passion for science. He went on to earn a B.S. in Biochemistry with honors and an M.S. in Chemistry before serving as a Chemistry Lecturer at the University of The Bahamas, leaving a lasting impression on his students. Recognizing the need to further his education and expand his impact, he made the decision to pursue pharmacy with a focus on serving underrepresented communities. David's commitment to education and making science accessible led him to author two chemistry textbooks and launch a podcast, *The STEAM Success Blueprint*, featuring conversations with leaders across science, education,

and innovation. His work has extended beyond the classroom, including donating book proceeds to support communities affected by hurricanes in The Bahamas. Seeking to expand his impact through patient-centered care, David chose pharmacy and joined Howard University College of Pharmacy. Since arriving, he has embraced opportunities in research, advocacy, professional development, and experiential learning while gaining hands-on experience as a CVS Pharmacy Intern.

When reflecting on his journey and frequent transitions, David emphasizes the importance of community, discipline, and faith. Building meaningful connections with people, even in moments of solitude, has been essential to his growth and a desire to help make healthcare more accessible to underserved communities. As David puts it,

"Accountability is important to me. You must commit to your decisions and see them through—especially when it comes to patient care. You have lives on the line. So, approach everything with humility, curiosity, and consistency."

David continues to demonstrate a deep passion and unwavering commitment to the field of pharmacy. Through his dedication and hard work, he is poised to positively impact the lives of patients in need of compassionate, comprehensive care. At Howard University College of Pharmacy, he is taking meaningful steps toward shaping the future of the pharmacy profession.

FACULTY ACHIEVEMENTS

Teacher of the Year

La'Marcus T. Wingate, Pharm.D., Ph.D.

Associate Professor

Dr. La'Marcus Wingate's research focuses on patient-reported health outcomes and economic evaluations of public health programs, with an emphasis on infectious disease prevention and treatment. His work has explored tuberculosis prevention and treatment among populations immigrating to the United States, as well as health behaviors and their impact on obesity within minority communities through his involvement in an NIH-funded Obesity Health Disparities program.

In recognition of his commitment to student learning and mentorship, Dr. Wingate was also named Teacher of the Year, honoring his dedication to excellence in pharmacy education.

Excellence in Teaching Award Recipients

HOWARD UNIVERSITY | College of Pharmacy

Earl Ettienne, BScPharm, MBA, LP.D. RPh.

Dr. Ettienne remains committed to preparing the next generation of pharmacists, pharmaceutical scientists, healthcare leaders, and policy professionals. Through mentorship, program development, and partnerships, he continues to create opportunities for students and emerging professionals to turn "*success into significance.*"

Salome Weaver, Pharm.D., BCGP, FASCP

Dr. Weaver is actively engaged in clinical trials in collaboration with the Howard University College of Medicine, supported by the Clinical Trials Center of Excellence. Funded by the Novartis and Sanofi U.S. Foundations, her work advances patient-centered clinical research and innovation.

Adaku Ofoegbu, Ph.D., Pharm.D.

Dr. Ofoegbu advances pharmacy education and research through her work in pharmacogenomics and opioid use disorder, with a focus on improving treatment outcomes and addressing health disparities. Her research has been supported by organizations including the DC Opioid Abatement Fund.

Padmamalini Baskaran, M. Pharm., Ph. D.

Pharmaceutical scientist, educator, and researcher focused on translational drug discovery and preclinical development of novel therapies for obesity, metabolic disorders, heart failure, and triple-negative breast cancer, with a particular interest in TRPV-targeted therapies. An award-winning educator and mentor, she has received multiple honors, including HUCOP Teacher of the Year and Faculty of the Year, for her commitment to excellence in teaching, research mentorship, and student development.

OUR COMMUNITY

Goodbye Chauncey Cooper Hall Day

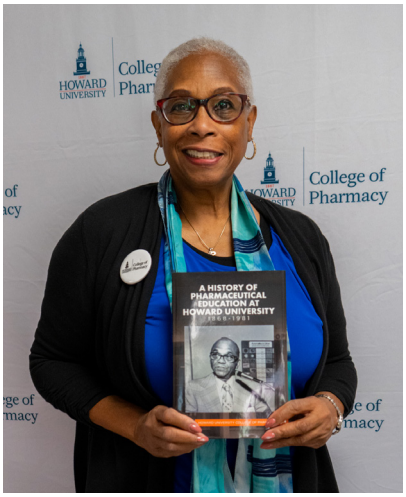

On April 22, 2026, the Howard University College of Pharmacy community gathered to bid farewell to Chauncey Cooper Hall, a building that has been home to generations of students, faculty, and staff. The day was filled with reflection, laughter, and stories as the Pharmily celebrated the memories and milestones created within its walls. While saying goodbye was bittersweet, the gathering honored the people and experiences that made Chauncey Cooper Hall more than a building—it was a place where lifelong connections were formed and the next generation of pharmacy professionals began their journeys.

As the College looks ahead, the spirit and legacy of Chauncey Cooper Hall will move forward with the Pharmily. A new chapter is beginning, bringing new spaces, new opportunities, and new possibilities for learning, research, collaboration, and service. A new home awaits the Pharmily, and the future is bright, downtown at 640 Massachusetts Avenue.

goodbye Chauncey Cooper Hall...

...Hello 640 Mass!

Did you know?

Howard University College of Pharmacy began a new chapter in Fall 2026 with its move from longtime home Chauncey Cooper Hall to 640 Massachusetts Avenue NW, Washington, D.C. The 84,900-square-foot facility brings the College closer to the heart of the nation's capital and provides modern spaces for learning, collaboration, research, and engagement.

The new space features a shared atrium, 100+ seat lecture auditorium, student commons and lounge, broadcast and podcast room, enhanced security, and modern facilities, creating a collaborative environment for the next generation of pharmacy leaders.

ALUMNI FEATURE

The Power of Prevention: Dr. Abraham Hollist's Calling to Transform Lives

For Dr. Abraham Hollist, a lifelong curiosity for medicine began as a young boy growing up in Lagos, Nigeria. An early experience involving one of his family's chickens sparked questions about medicine, healing, and the effects of treatment that would eventually lead him toward a career in pharmacy.

At 14, Dr. Hollist moved with his family to Lansing, Michigan, and later attended Howard University, where he studied Chemistry and Biology. His path to the Howard University College of Pharmacy was shaped by persistence. After much hardship he remained determined to pursue a career in healthcare. He arrived at Howard without housing secured, worked while attending school, and persevered until he earned his place in the College of Pharmacy.

During his time at Howard, Dr. Hollist experienced both the challenges and rewards of pharmacy education. His experiences with the loss of classmates and loved ones to sickle cell disease later became deeply personal when his son, Isaiah, was diagnosed with the condition. Driven by a commitment to preve-

ntion and patient-centered care, Dr. Hollist immersed himself in research and explored nutrition, wellness, and preventative health.

His family's experience ultimately inspired a broader vision for healthcare. Together with his wife, Dr. Hollist founded Optimal Health, a comprehensive healthcare model integrating primary care, pharmacy, behavioral health, social support, and community resources. Their work reflects a commitment to improving access to care and addressing the needs of underserved communities.

Today, Dr. Hollist continues to expand his impact as a pharmacist, healthcare entrepreneur, advocate, and member of the Howard University College of Pharmacy Board of Visitors. His work extends beyond South Florida to Nigeria, where he supports health education and advocates for stronger approaches to preventative and alternative healthcare.

"Don't accept no. Be determined, and it will work out."

From a curious child trying to save a chicken in Nigeria to a pharmacist, entrepreneur, healthcare advocate, and community leader, Dr. Abraham Hollist has transformed personal experiences into purpose-driven action for years to come.

Isaiah Hollist 2nd Annual Walk for Sickle Cell Cure, Miami Gardens, Florida

DEAR ALUMNI

HOWARD UNIVERSITY | College of Pharmacy

"Your time at Howard challenged and prepared you to serve as a compassionate, competent, and culturally responsive healthcare professionals."

Dear Alumni,

You are an integral part of the Howard University College of Pharmacy's enduring legacy of excellence, service, and leadership. Your accomplishments reflect the education and values cultivated at Howard, while your continued engagement helps strengthen the College for future generations.

We invite you to stay connected by:

- **Engaging**: Reconnect with classmates, mentor students, and share your experiences with the next generation of Bison pharmacists.
- **Giving Back**: Support scholarships, programs, research, and initiatives that advance student success and community impact.
- **Joining Us**: Attend alumni events, Homecoming, and College programs to celebrate our shared accomplishments and strengthen our Phamily.

Thank you for continuing to represent the excellence of Howard University College of Pharmacy. Your support, involvement, and leadership help shape the future of pharmacy.

Warm Regards,

Maria A. Clary, Pharm.D.

President, Howard University Pharmacy Alumni Association
